

WELCH ALLYN® CARDIOPERFECT® WORKSTATION PC-BASED RESTING ECG

EFFICIENTLY CONNECTING PATIENT DATA TO YOUR EMR FOR IMPROVED ACCURACY & STREAMLINED EXAMS

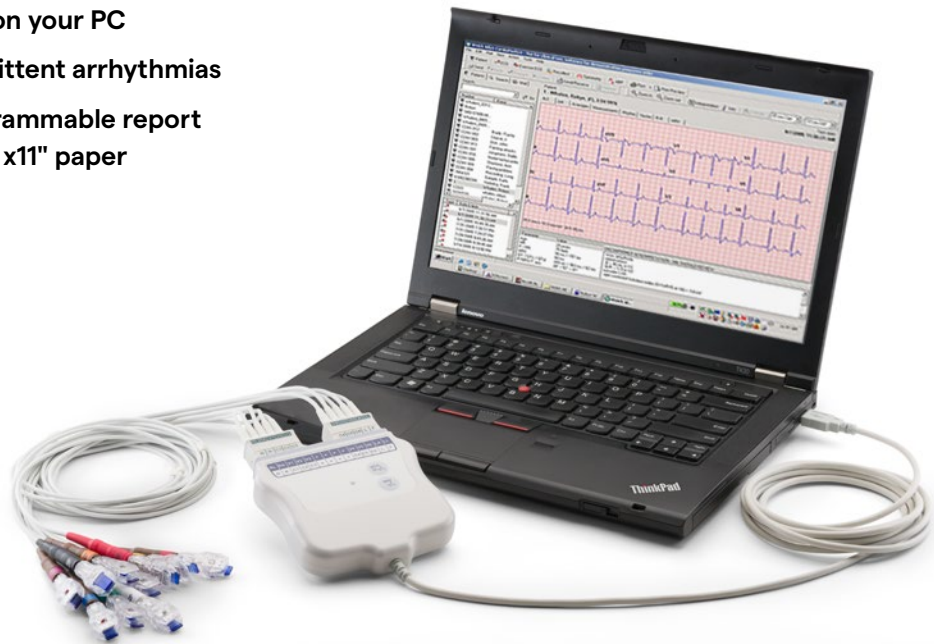

Help enhance your practice's efficiency with the Welch Allyn PC-Based Resting ECG—part of the CardioPerfect WorkStation suite. Our portable PC-Based solution can help you improve exam accuracy with streamlined access to patient information across your network. Automatically transfer patient data and test results into most EMRs without duplicate steps or the errors commonly associated with manual data entry. Beyond the benefits of a connected workflow, our PC-Based

solution also delivers reliable ECG readings to help you eliminate repeat exams and make clinical decisions with confidence.

The CardioPerfect WorkStation suite offers additional functionality for practices seeking a flexible solution. Now you can add ECG, spirometry and/or ambulatory blood pressure monitoring (ABPM) modules to help maximize your investment.

CONNECTING YOU TO PATIENT DATA FOR A STREAMLINED EXAM EXPERIENCE

- Use the CardioPerfect WorkStation ECG with a single computer or enterprise-wide network—with or without an EMR
- Help improve patient care by overlaying previous ECG exams to spot differences between test results
- Improve exam efficiency with an on-screen, 4x3 preview before printing
- Experience high-quality, reliable readings that can help you eliminate repeat ECGs
- Quickly review exams with automatic ECG measurements
- Interpret and edit reports directly on your PC
- Easily monitor patients with intermittent arrhythmias
- Use your current printer with programmable report formats that print on standard 8.5" x11" paper
